

College of Environment

Supervisor	Supervisor Type	Major	Research Directions	Email	Tel
Environmental Engineering					
WANG P; CHAO	Doctor	Environmental Engineering	Water resources protection and ecological restoration	cwang@hhu.edu.cn	
PANG YONG	Doctor	Environmental Engineering	Environmental Science and environmental engineering	ypang@hhu.edu.cn	
HUA ZU LIN	Doctor	Environmental Science and environmental engineering	Ecological and environmental hydraulics, restoration of water environment, water environment model	Zulinhua@hhu.edu.cn	
ZHU WEI	Doctor	Environmental Science and environmental engineering	Theory and technology of sewage sludge treatment and resource utilization, group and kinetics mechanism of blue-green algae	weizhu@hhu.edu.cn	025-83786021
HAN LONG XI	Doctor	Water environment protection	The protection and planning of water resources	hanlongxi@sina.com	
LU GUANG HUA	Doctor	Environmental Science and environmental engineering	Environmental behavior of emerging contaminants, pollution ecology, Environmental Toxicology	ghlu@hhu.edu.cn	
WANG PEI FANG	Doctor	Environmental Engineering	Study on water resources protection theory and application technology, study on pollutant transport characteristics and migration	pfwang2005@hhu.edu.cn	
ZHU LIANG	Doctor	Environmental Engineering	Theory and technology of water pollution control, water environmental protection and ecological restoration, water treatment technology	zhulianghhu@163.com	
YUAN XU YIN	Doctor	Geochemistry	Environmental geochemistry, river and lake, water pollution control, soil pollution control, of environmental science and Engineering	yxy_hjy@hhu.edu.cn	
ZHU JIAN ZHONG	Doctor	Environmental Chemical	Environmental application materials, the theory and technology of water pollution control, resources and environmental protection	Zhuhhai2010@hhu.edu.cn	025 - 83786696
LI ZHI	Doctor	Environmental Engineering	Sewage treatment and resource, water environment management and restoration, water resources protection	envly@hhu.edu.cn	

LI YI PING	Doctor	Environmental Engineering	Rivers and lakes eutrophication mechanism, planning and evaluation of water environment system	liyiping@hhu.edu.cn	
YANG HAN PEI	Doctor	Environmental Engineering	Modern water treatment science and technology	yanghanpei@hhu.edu.cn	
XU YING	Master	Environmental Science and environmental engineering	Study on transformation mechanism and regularity of pollutant migration in water, soil environmental medium, development and Application Research on the treatment and disposal technology of	xyhohai@163.com	
HONG LING CHENG	Master	Chemical analysis	Environmental monitoring and analysis equipment	Delin-hong@163.com	
WU YUN HAI	Master	Biodiversity	Environmental Science and environmental engineering	njwyh@yahoo.com	
ZHAO ZHEN HUA	Master	Environmental Science and environmental engineering	Study on the species and activity of microbes and enzymes in wetland, soil and Rhizospheric microenvironment, trace pollutants in water, the typical risk soil, medium environmental testing, the design of integrated water resources planning and pollution	Zzh4000@126.com	
HOU JUN	Master	Environmental Engineering	Water resources protection and ecological restoration	hjy_hj@hhu.edu.cn	2583787332
CHEN DE QIANG	Master	Environmental Science	The protection of the water environment and ecological water, water pollution control chemistry, Environmental Microbiology	hjycdq@hhu.edu.cn	
LUO JIN	Master	Environmental Engineering	water, environmental planning, environmental impact assessment, shallow	hhlo@163.com	
ZHANG SONG HE	Master	Environmental Science and environmental engineering	Water ecological restoration, engineering, theory and technology of wastewater treatment and resource technology, environmental behavior and risk assessment of particulate	Shzhang@hhu.edu.cn	

WANG Peng; PENG;	Master	Environmental Engineering	Pollutants and sediment; soil interaction mechanism; the basin (river and Lake) to construct the water quantity and water quality simulation; digital valley	hhwp@hhu.edu.cn	025-83787144
WANG YONG HUA;	Master	Environmental Science	New analysis methods of toxic and harmful pollutants in environment and biological effect	mgflora@gmail.com	
FANG Fang; FANG;	Master	Environmental Engineering	The theory and technology of water pollution control	ffang65@hhu.edu.cn	025-83787935
BAI Xue; XUE;	Master	Environmental Science and environmental engineering	Emerging contaminants in environmental fate; rapid detection of natural water pollutants; the new method of wastewater treatment process	baixue@hhu.edu.cn	
LIU XIAO DONG;	Master	Environmental Engineering	Study on pollutant transport mechanism; numerical simulation and engineering application of transmission in the water body.	Lxd654321@163.com	
SUN QIN;	Master	Environmental Science	Water pollution control engineering; protection and restoration of water resources; ecological health risk assessment of	sunqinnj@hhu.edu.cn	
JI LINAG LIANG	Master	Environmental Science	Environmental effects of environmental behavior of organic pollutants; the new nano material and its application	jill@hhu.edu.cn	
ZHANG CHUN LEI;	Master	Environmental Engineering	Land pollution governance and high moisture content of solid waste (sludge, sludge, and tailings) disposal and resource	chunleizhang@hhu.edu.cn	
LI YONG;	Master	Environmental Engineering	Water environmental pollution and remediation; soil and groundwater solute transport and transformation; environmental planning and evaluation	liyonghh@hhu.edu.cn	

LI YING	Master	Environmental Science	Research and monitoring of micro and trace organic pollutants analysis in environmental media; interaction and its biological and toxicity effects of environmental chemicals and biological	hj6688@hhu.edu.cn	
LI JI ZHOU	Master	Environmental Engineering	Water pollution control; pollutant migration and transformation; rule and water ecological restoration in environmental	jizhou_li@tom.com	
NI LI XIAO	Master	Environmental Engineering	The restoration of water pollution control and water ecology; the study on control technology of algae	nilixiao@gmail.com	
AO YAN HUI	Master	Environmental Engineering	Technology and environment friendly material for water pollution control of photocatalytic technology; clean energy; development and utilization of nanometer materials; environmental behavior	andyao@seu.edu.cn, andyao@hhu.edu.cn	
QIAN JIN	Master	Environmental Engineering	Water resources protection and ecological restoration	hhuqj@hhu.edu.cn	2583787332
GU LI	Master	Environmental Engineering	Migration and transformation laws of ecology and environmental hydraulics; restoration of water environment; water environment model; environmental impact	guliqc@hhu.edu.cn	025-83786659
HUANG JING YU	Master	Environmental Engineering	Green building materials; technology and application of solid waste utilization and recycling of resources; solid waste pollution control and environmental behavior and solid waste	huangjingyu120120@126.com	
TAN XIAO	Master	Environmental Science and environmental engineering	Lake eutrophication and algae bloom	tanxiao1030@163.com	025-83787801
ZHU KE JIAN	Master	Environmental Science and environmental engineering	Environmental hydraulics and pollutant migration and transformation; rules, simulation; water environment numerical evaluation of environmental quality	kejianc@hhu.edu.cn	

WANG SHUN CAI 	Master	Environmental Engineering	Solid waste disposal and resource utilization	wshcai@hhu.edu.cn	
WANG HUA 	Master	Environmental Engineering	Water pollution control, water ecological restoration, water environment numerical simulation,environmental planning and evaluation	Wanghua543543@16 3.com	
Municipal Engineering					
CHEN ; WEI 	Doctor	Municipal Engineering	Theory and technology of water pollution control	cw5826@hhu.edu.cn	83787618
CAO JIA SHUN 	Doctor	Municipal Engineering	Theory and technology of water pollution control	caojiashun@163.com	025-83786701
LIN TAO 	Master	Municipal Engineering	Research on theory and technology for drinking water treatment	hit_lintao@163.com	
SUN MIN 	Master	Municipal Engineering	Water treatment technology and water resources protection	sunm@hhu.edu.cn	83786897
FENG QIAN	Master	Municipal Engineering	Water treatment process of water dynamic si mulation and optimization	Xiaofengqian1977@1 63.com	2583787935
LIU CHENG 	Master	Municipal Engineering	City drinking water safety research, te chnology and theory construction p;of ground watertreatment technology and equipment research and development	liucheng8791@hhu.ed u.cn	0.25-83787984
TAO HUI 	Master	Municipal Engineering	Technology and drinking water safety	taohui@hhu.edu.cn	025-83787984
ZHENG XIAO YING 	Master	Municipal Engineering	The theory and technology of sewage treatment and resource utilization	zhxyqq@hhu.edu.cn& nbsp;	025-83786707
ZHAO LIAN FANG 	Master	Municipal Engineering	Research on the theory and technique of water pollution control	lfzhao@hhu.edu.cn	
XU HANG 	Master	Municipal Engineering	The safety of drinking water security theory and technology, water pollution control theory and technology and other aspects of scientific research, engineering and technical consulting and technical services	Xuhang810826@sina. com
